

KJNP TRAPLINE NEWS

The Lord is my rock, and my fortress, and my deliverer; my God, my strength, in whom I will trust; my buckler, and the horn of my salvation, and my high tower. Psalm 18:2

Dear Partners

June 2017

Another summer has so quickly rolled around, and that means fast work for the few short summer months that we have at KJNP. To get it accomplished, this year we have four work teams coming to help: one from Pennsylvania, two from Colorado, and one from Wisconsin. We do have some large projects to get done this summer, as another log cabin has to come down. Also, we need a new underground electric service to five cabins. This project will be a very expensive one. Plus, we always have roof work. We need to replace the outer logs, which we call trim poles, that hold the sod on the roof since several of them have rotted. There are also many small jobs, all of which take time, but must be done. We say thank you to all the work teams. Many hands make the work load much lighter.

KJNP TV

We are thankful to report that KJNP-TV Channel 4 is now broadcasting in High Definition and the picture is beautiful. The response has been good, and even though it took purchasing new automation equipment, it was certainly worth it to our viewers. KJNP-TV has been broadcasting since December 1981 and we had a "live" broadcast the first 25 years, but do to lack of staff to run the cameras and the control room, we had to cut back and no longer have "Closing Comments" which was a live interview program.

AM

Tower

We had a tower inspection this past May to find out that our 425 foot tower for the AM

50,000 watt station has to be replaced. This is

scheduled for next summer. Redgy, our engineer is checking on prices for the project. A rough estimate for purchasing the new tower with the shipping, taking down the existing tower, erecting the new tower, putting in a new grounding system and guy cables, plus all the necessary equipment that comes along with the project; this comes close to 300,000 dollars. So that gives you something to pray about. The AM signal is so important here in Alaska to get the word out to the remote places. Thanks for your prayers.

Engineering

Over the winter Redgy was able to install new countertops in the AM studio. The new digital equipment is in place on those counter tops and operating. He has started working on Studio "C" which is the oldest studio that we have operating. It needs to be redone because it is starting to show problems with the mixer board. When we change that out, we will also set up the studio to be used as an on-air backup for Studio 'A'. Redgy has started by pulling in wires for this, he also has the studio switching ready to go, as he did that when working in the other studios as he was getting them done.

Another thing came up when we got a call from the utility company at Tok informing us that they are going to be updating their system to fiber optics this summer, and stop using copper service. This affects us in that we currently are using a copper pair to get the audio signal to the translator there. Because of this, we need to change the site over to receive the audio by internet this summer. Redgy has ordered the equipment and started planning how and when to do it. He will probably need to be working at Tok a variety of days this summer as we implement this.

50th Anniversary

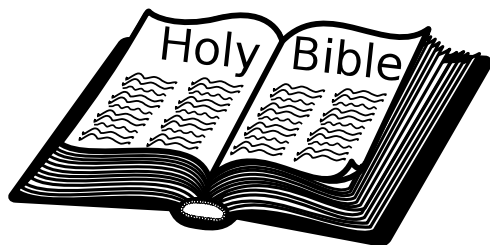

We would like to remind you again, coming this October 11th is our 50th anniversary for KJNP-AM broadcasting the Good News of Jesus Christ. We will be celebrating on October 7th with a banquet. Our special speaker is Kerby Anderson the host of the Point of View broadcast which we have been airing on KJNP for a number of years.

Bibles for Others

We here at Bibles for Others continue to daily be grateful and blessed by the many ministries that write such heart-felt letters requesting Bibles and materials for their own outreaches around the world. This joyfully keeps us really busy!

For many of these pastors, over the years we have developed a relationship after exchanging letters not only asking for Bibles for their churches but also asking for special prayer for situations within their own families. Sometimes they have a special request for receiving their Bibles. For example, we were happy to meet the need of a Pastor in Kenya who asked for Bibles sent in a special way that would help him to collect the Bibles without extra fees included at the time they were delivered.

We received a request from a person in Nigeria who had tried to commit suicide after losing his beloved daughter to a dog bite. He had lost his trust in God and felt he had nothing to live for. By God's wonderful grace, he heard the story of Jesus and a preacher shared the scripture of

John 3:16 and he was so moved by this that he put his love and trust back into Jesus and was therefore writing to us to send him a Bible. What a privilege it is for us to be a small part of the life change that this man is experiencing!

We have had the opportunity to send Bibles to an orphan home in India. This orphan home also provides shelter for widows and destitute women. They are thankful for any Bibles we can send to this blessed ministry.

Another letter from Kenya expresses gratitude for the Bibles we have sent and asks for more because, "many people are walking in darkness and need to read the good news that Jesus Christ is their Savior". They go on to say, "Please meet our humble request for more Bibles. We would like to give them to people to read and prepare to meet our Lord. He is coming soon and will reward us accordingly to the good work we do for soul-saving."

A special note of gratitude came stating: "We thank you for your Gospel tracts sent over here.

Now they are a great blessing to us as many souls have been saved with these tracts. A woman received these tracts and hung them up at the entrance of a bus stop and now this has led to souls

being saved at that bus stop!"

These pastors also state that another goal of their church is to provide many church leaders with a Study Bible. They start with pastors and teachers and then others who do not have a Bible and seek to give them a Bible for their use at the altar. They say that man's greatest need is spiritual and if they can give them one thing, it needs to be a Bible. It goes on and on, PTL!

Thanks again for your prayer and financial support.

Yours for souls,

THE STAFF of KJNP & BIBLES FOR OTHERS
